

Conceal-Assistant is a web-server base type of application, to help you oversee your node and miner operation. It simply check the status of the associated services and also allows you to deactivate or activate those services.

It is of course dedicated to the Conceal-Network but more specifically to a “CCX-BOX”, nevertheless it can work on any desktop computer running Ubuntu, and can be consulted from any other devices on the same local network via a web browser.

Two way to install :

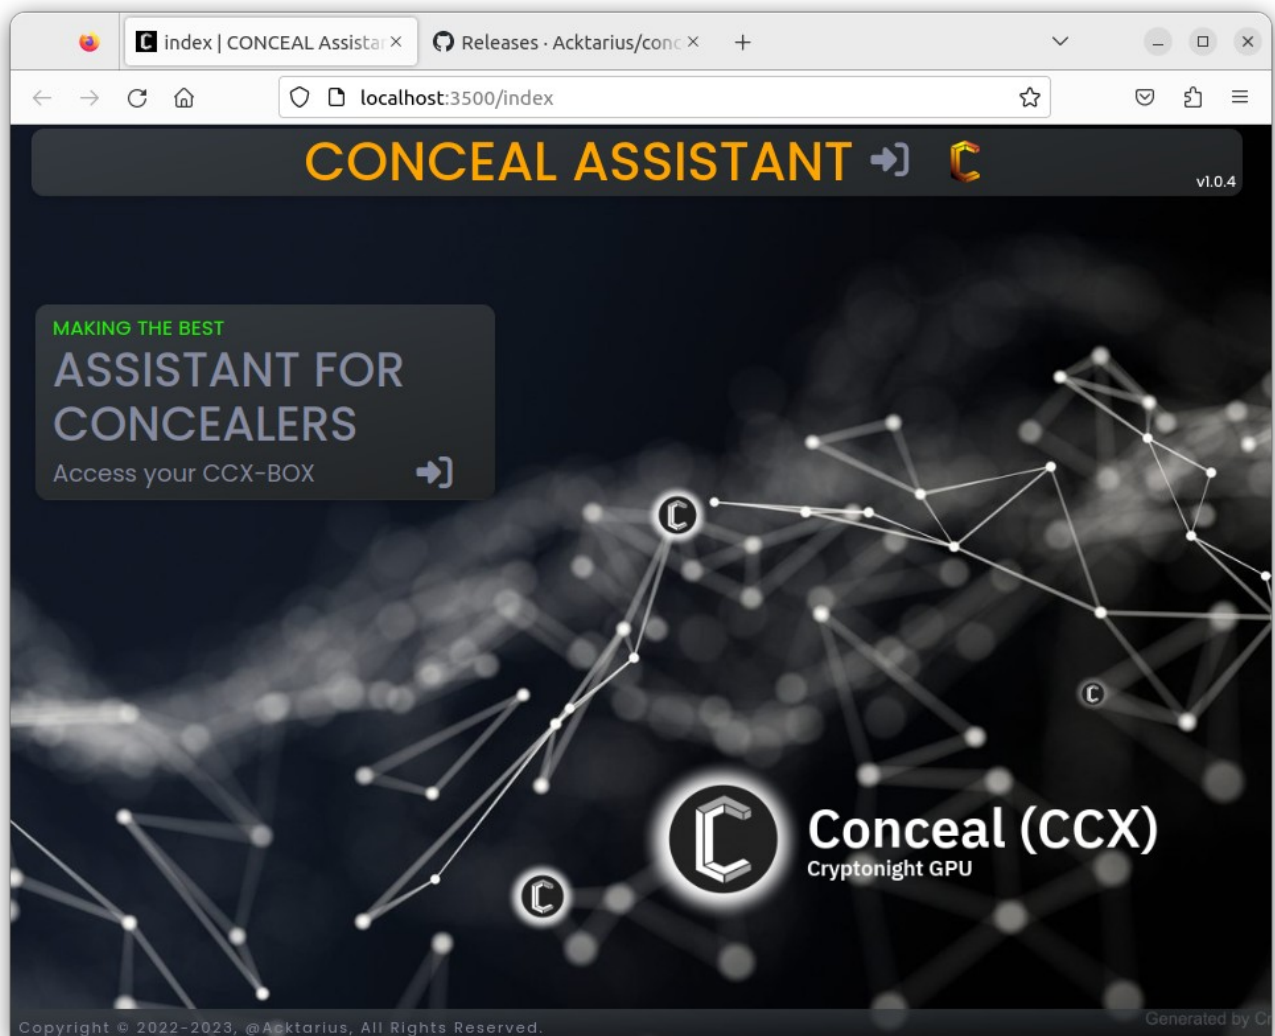

- installing dependencies and downloading the repository from Github :

<https://github.com/Acktarius/conceal-assistant/releases>

- Downloading .deb package :

<https://github.com/Acktarius/conceal-assistant-ez/releases>

Main Page, Status :

The screenshot displays the 'CONCEAL ASSISTANT' application window. The title bar includes the application name, a settings gear icon, a folder icon, a refresh icon, and the Conceal logo, with the version 'v1.0.4' on the right. The main content area features two status panels: 'NODE ASSISTANT' with 'Guardian servive is ACTIVE' and 'open API' link, and 'MINER ASSISTANT' with 'Miner is ACTIVE' and 'open API' link. Both panels have a 'Deactivate' button. The background is a dark network graph with the Conceal logo and the text 'Conceal (CCX) Cryptonight GPU'. The footer contains copyright information and a 'Generated by' watermark.

Change Mining Software :

The screenshot displays the 'CONCEAL ASSISTANT' application window. The title bar includes a home icon, a refresh icon, and the Conceal logo. The main content area features a 'MINING SOFTWARE' panel on the left with the following details:

- Software:** XmrStak
- Working Directory :** /opt/xmr-stak/build/bin/
- Miner Path :** /opt/xmr-stak/build/bin/xmr-stak

Below the miner path, there is a link labeled '- Flight Sheet # 7' and a 'Modify' button. The background of the interface is a dark theme with a network graph pattern and the Conceal logo. In the bottom right, the text 'Conceal (CCX) Cryptonight GPU' is visible. The footer contains the copyright notice 'Copyright © 2022-2023, @Aektaarius, All Rights Reserved.' and the text 'Generated by'.
